INCIDENT Weather Forecast

FORECAST NO: 1

NAME OF FIRE: Lane Fire

PREDICTION FOR: Monday/Monday Night SHIFT UNIT: Tehama Glenn

SHIFT DATE: June 25/26

SIGNED: Mike Smith *Mike Smith*

TIME AND DATE

FORECAST ISSUED: 2100 June 24, 2018

Incident Meteorologist

WEATHER DISCUSSION: Upper level high pressure ridge that brought the hot dry weather over the weekend has been displaced eastward by a low moving into the Pacific Northwest. This will bring in a southerly wind and modified delta flow to the fire area which should bring at least some cooling and higher humidity Monday. Winds should be mainly terrain driven with a south to southwest component in the afternoon. RH recovery Monday night should be somewhat better than over the weekend and likely climbing above 50%. Conditions will warm and dry a bit on Tuesday but continued southerly winds will keep conditions more moderate than over the weekend.

WEATHER FORECAST:

WEATHER: Sunny.

TEMPERATURES: Maximum temperatures 91-95. Morning minimums around 70.

HUMIDITY: Minimum afternoon humidity 21-26%. Morning RH recovery around 50%

20 FT WINDS:

RIDGETOP - Southeast winds to 5 mph becoming southwest after about 1000 5-10 occasional gusts to 14 mph.

SLOPE/VALLEY - East winds to 5 mph becoming mainly southwest after about 1000 3-7 mph with occasional gusts to about 10 mph.

STABILITY/INVERSION: Moderately stable conditions with inversions breaking after about 1000.

OUTLOOK FOR Monday Night: Fair skies. Minimum temperatures 64-68. Max RH recovery 50-55%. Winds becoming southeast to northeast after sunset up to 5 mph with gusts to 10 mph in the evening hours. Slope winds mainly downslope 1-4 mph.

OUTLOOK FOR Tuesday: Sunny. Maximum temperatures 92-96. Minimum humidity 14-17%. Ridge winds Southeast to 5 mph becoming southwest after about 1000 5-10 mph. Slope winds downslope 1-4 mph becoming upslope to southwest 3-7 gusts to 10 mph.

EXTENDED Outlook for Wednesday: Sunny. Slightly cooler with slightly higher humidity. Continued south to southwest wind in the afternoon.

EXTRA INFORMATION: Sunrise 5:38 Sunset 8:40

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 001	TYPE OF FIRE: Wildfire
FIRE NAME: Lane	OPERATIONAL PERIOD: 06/25/18 0700-0700
DATE ISSUED: 06/24/18	TIME ISSUED: 19:00
UNIT: CA-TGU-006031	SIGNED: <i>Todd Hopkins</i> Typed/printed: Todd Hopkins (FBAN)

INPUTS

WEATHER SUMMARY: Upper level high pressure ridge that brought the hot dry weather over the weekend has been displaced eastward by a low moving into the Pacific Northwest. This will bring in a southerly wind and modified delta flow to the fire area which should bring at least some cooling and higher humidity Monday. Winds should be mainly terrain driven with a south to southwest component in the afternoon. RH recovery Monday night should be somewhat better than over the weekend and likely climbing above 50%. Conditions will warm and dry a bit on Tuesday but continued southerly winds will keep conditions more moderate than over the weekend

Max. Temperatures: 91-95 degrees

Min. Humidity: 21-26%

20 FT WINDS:

RIDGETOP - Southeast winds to 5 mph becoming southwest after about 1000 5-10 occasional gusts to 14 mph.

SLOPE/VALLEY - East winds to 5 mph becoming mainly southwest after about 1000 3-7 mph with occasional gusts to about 10 mph.

OUTPUTS

FIRE BEHAVIOR

GENERAL:

The fires are burning in a mix of grass and brush with a small amount of Grey Pine stands. The grass component is fully cured, with a moderate fuel loading, mixed with the brush component which is still not fully cured. The fire spread was initially driven by high winds and low humidity with short to medium range spotting. Wind speeds are expected to significantly decrease from the previous day which will lead to lower rates of spread and lower spotting distances.

Probability of Ignition: 91%

FDFM: 3%

ERC: 72 (78 90th Percentile)

100 HRFM: Near 90th Percentile

LAL: 1

1000 HRFM: Near 90th Percentile

SPECIFIC:

<i>Rate of Spread (ft/min)</i>			<i>Flame Length (in feet)</i>	
Grass	Head	17-76	Head	4-12
	Flank	6-26	Flank	3-7
	Backing	2-9	Backing	2-4
Brush	Head	3-22	Head	2-5
	Flank	1-8	Flank	1-3
	Backing	>1-3	Backing	>1-2

Spotting Distance: 500 feet to ¼ mile with wind gusts

AIR OPERATIONS:

Smoke early morning will make it difficult to see resources working on Divisions.
Sunrise: 0540 Sunset: 2042

SAFETY

- Watch out when on a hillside where rolling materials can ignite fuel below.
- Don't become complacent! Identify your safety zones and escape routes.

LANE HEALTH AND SAFETY MESSAGE

Maintain Situational Awareness!!!

INCIDENT: Lane Fire CA-TGU-006031

DATE: June 25, 2018 **TIME:** 0700-0700

Major Hazards and Risks: Hot dry weather, Driving, Steep terrain.

Fire Behavior: Fuels are receptive to fire spread. A small amount of wind on this dry fuel changes the game dramatically!! Be alert to changes in wind direction and expect changes in fire behavior. Flare-ups generally occur in deceptively light fuels.

Steep slopes/rolling material: Watch your footing while hiking in steep terrain. Be careful of loose rolling debris. Maintain Situational Awareness.

Personnel: Manage yourself and those around you for fatigue. Drink fluids frequently and eat nutritious food regularly. As fatigue increases, injuries tend to increase also. Keep an eye on your crew and partner. Stay engaged and make smart decisions.

Driving: Slow Down! Drive defensively. Highway 36 is open to the public. Expect the unexpected around every curve. Drive with headlights and seatbelts on. Coordinate your movements on one-lane roads.

Poison Oak: Review identification of poison oak. Avoid poison oak, wash as frequently as possible. Use Technu if available. Change clothing as possible.

Review your ICS 206 and know what to do in the event of a line emergency.

Lookouts, Communication, Escape routes, Safety zones

Tailgate Safety

- **Accountability:** everyone checks in and everyone checks out. Supervisors know where their crews are at all times
- **Communication:** everyone knows the com-plan
- **Briefing:** everyone knows the plan and the contingency plan
- **Safety gear:** everyone has the appropriate safety gear in good working condition
- **LCES:** they are clear and made known to everyone

Heat Illness Prevention:

- Drink plenty of fluids:
 - Water and Gatorade
- Avoid drinking energy drinks
- Eat nutritious food regularly
- Rest when you can
- Find shade when you can

Incident Safety Officer: Chad Thompson SOF1(T)

Incident Commander: Sean Kavanaugh

LANE INCIDENT RISK ANALYSIS (ICS 215a)

DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	FIRE BEHAVIOR	Know your LCES and maintain Situational Awareness. Use experienced Look Outs. Adhere to the downhill line construction guidelines. Monitor weather for changes in the wind, temp, and RH when the inversion lifts. Expect rapid rates of spread with spotting, have a contingency plan with established decision points and safety zones.
ALL	FATIGUE/HEAT/DEHYDRATION	Be alert for signs of fatigue and take breaks as necessary. Monitor incoming resources for level of fatigue. Drink water before, during and after shifts, up to 1.5 gal. per shift. Be alert for signs of heat stress in yourself and others; use the buddy system. Eat small meals often and when possible Drink electrolyte drinks at a 3 water to 1 sport drink ratio.
ALL	STEEP TERRAIN / ROLLING DEBRIS	Watch your footing while hiking in steep terrain. Be careful of loose rolling debris. Maintain Situational Awareness.
ALL	HAZARD TREES	Identify and isolate the area to provide for the safety of others. Flag and make proper notifications. Do not fall trees out of your certification level.
ALL	LINE CONSTRUCTION	Conduct thorough briefing for all personnel (inside rear cover IRPG). Ensure LCES in place prior to engagement. Establish adequate safety zones. Use Downhill Line Checklist. Follow "Look Up, Look Down, Look Around" procedures. Utilize Risk Management Process. Reference the IRPG.
ALL	DRIVING HAZARDS	Slow Down! Highway 36 remains open to the public. Drive defensively! Expect the unexpected around every curve. Drive with headlights and seatbelts on. Narrow roads with limited passing room. Coordinate your movements on one-lane roads. Use warning devices when operating near traffic.
ALL	AIRCRAFT OPERATIONS	Monitor air-to-ground frequency, they are your eyes in the sky. Use air-to-ground frequency to communicate with aircraft. Use clear, concise statements when directing aircraft. Only utilize aircraft to insert personnel on the line when necessary.
ALL	DOZER SAFETY	Watch for rolling material. Monitor safe working distances. Avoid working below Dozer. Utilize communication with the operator (radio or hand signals)
ALL	POWER LINES	Follow Power Line Safety guidelines in the IRPG. Extinguish all power poles that are on fire before the fall. Communicate power line hazards to supervisor and hazard flag accordingly. Flag area around downed power lines and deny access. Treat all downed power lines as energized.
ALL	POISON OAK	Avoid poison oak, wash as frequently as possible (use Technu). Review identification of poison oak. Change clothing as possible.
ALL	PERFORM TAIL GATE SAFETY MEETINGS	Everyone should be briefed on the conditions and circumstances regarding the fire and their assignments per the IRPG. Ensure all personnel have PPE, food, and water.

TRAINING SPECIALIST MESSAGE

A Training Specialist is now on the incident.

ALL ASSIGNED TRAINEES

working on position task books will need to register with the Incident Training Specialist in order to receive proper credit for your assignment.

The Training Specialist is available immediately following the morning Operations Briefing.

TRAINING SPECIALIST

Claudia Soiza 949.632.7813

LANE INCIDENT – CATGU006031
Incident Trainee/Trainer Data Form

Training Specialist: Claudia Soiza 949.632.7813

- All Incident trainees, including those on Firefighting Modules at your earliest opportunity complete this form and see the Training Specialist.
- Prior to or as you process through DEMOB, remember to close your training package. To close your training package bring: 1) A performance rating from your trainer. (ICS 225)
2) Your task book that has as many entries as possible by your Trainer.

Trainee Data

Trainee Name: _____ ICS Trainee Position: _____

Request # (A,C,E, or O): _____ Agency Designator (MACS ID Ex. CA-ANF): _____

Ordered as Trainee? Y N _____ Regional Priority Trainee _____ Local Forest Trainee _____ IMT Trainee

Date Assigned: _____ Cell / Contact # While on Incident: _____

Training Records Mailed To: (Fire Chief, Training Officer):

Name: _____ Title: _____

Name of Agency/Unit: _____

Agency/Unit Address: _____

City: _____ State: _____ Zip Code: _____ Phone: _____

Trainee Prerequisites

1. Possesses valid Red Card or agency certification card? _____ Yes _____ No

2. Trainee has current position task book issued by home unit? _____ Yes _____ No

Current Task Book Progress (Circle) 0% 25% 50% 75% 90%

Priority Open Task in PTB (What do you need to accomplish on this incident?)

Trainer/Evaluator Data

Trainer / Evaluator Name: _____ ICS position on fire: _____

Home Unit: _____ Agency Designator (Ex. CA-ANF): _____ Request #

Work Address: _____

City: _____ State: _____ Zip Code: _____

Cell / Contact While on Incident: _____

LANE FIRE PUBLIC INFORMATION

Incident Information Line: 530-529-9233

MEDIA

California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering the locations specified within the code, even if the area presents a danger to them. Media members should be advised of the nature of possible danger. Members of the media do not have the right to access crime scenes or any area where their presence may interfere with incident operations, mitigation or evidence collection.

- The media may only access private property with the property owner's permission. Fire personnel cannot provide members of the media with authorization to enter private property.
- If approached and questioned by the media and/or the public, talk about your assignment or task at hand. If need be, direct the questioning party to the incident PIO.
- Do not speculate or give opinions
- There is no such thing as an "off the record" comment.

CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691)

Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask. **Do not post:**

- Inappropriate information, pictures or videos
- Opinions regarding the incident or policy
- Endorsements of any kind

PICTURES AND VIDEO OF INCIDENT

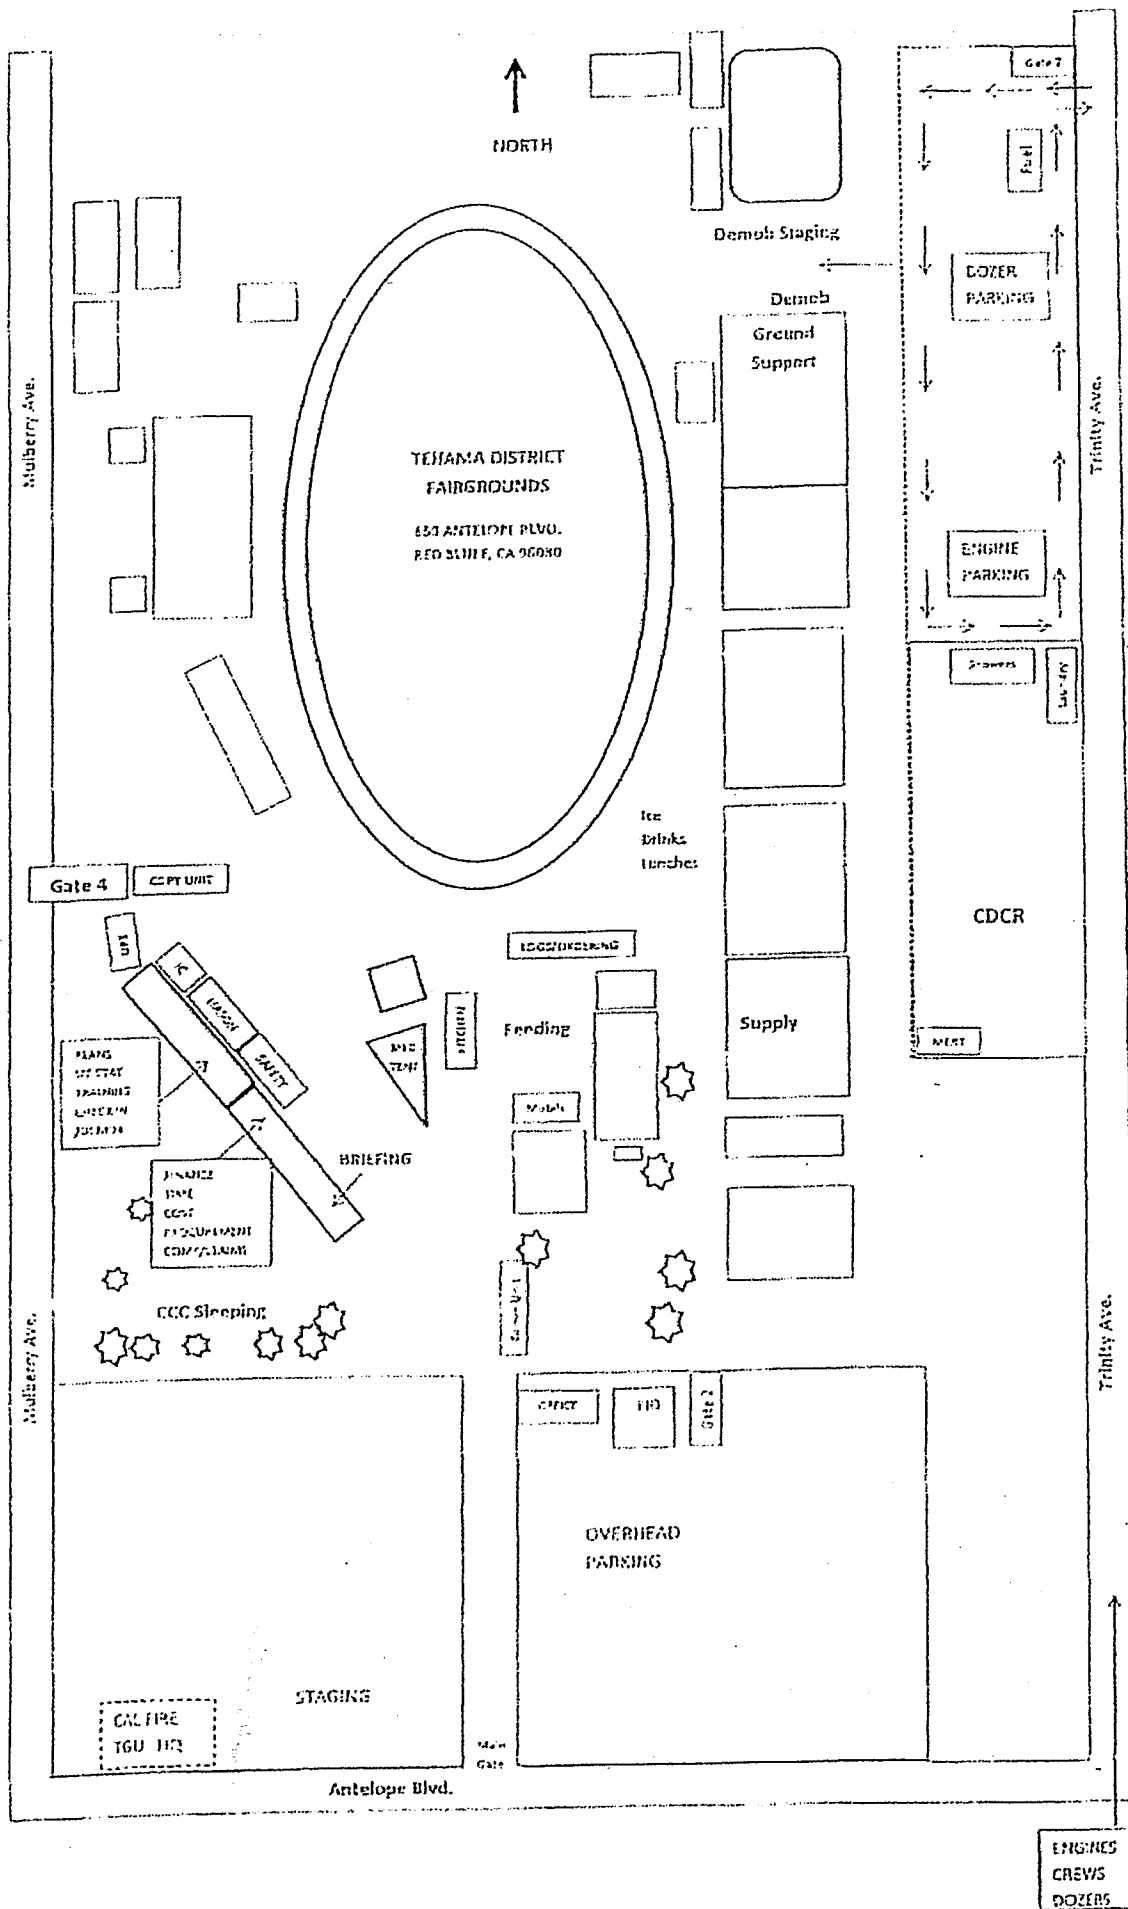

We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

LOST AND FOUND

The Information staff will manage *Lost and Found* items for the incident. If you have lost an item, leave your contact information and what you have lost at the Information trailer. If you have found an item on the incident, bring the item to the Information trailer.

MAIL SERVICE

The Information staff will assist you in mailing and receiving letters and packages.
